## Welcome Letter

Dear Parent/Guardian,

On behalf of Wayne Township's Language Assistance Program (LAP), we welcome all newcomers to the Wayne family! We are glad that you trust us to provide your children's academic needs this school year.

The Indiana Department of Education (**IDOE**) defines a newcomer student as one who has been attending one or more schools in any one or more US states for **not more than three full academic years** (three years includes kindergarten and homeschooling, but not preschool).

This booklet is to help you navigate through some basic information you may need both in Wayne Township Schools and around the city of Indianapolis. We have outlined a few important things for you and your family, including our learning opportunities at Achieve Virtual Education Academy (for Grades 7-12).

If your child speaks another language, you will find additional information at the back of this booklet about our Language Assistance Program. There are many valuable resources available to support your family in our district and city. My goal is to assist you in the continued success of your child.

Thank you for choosing Wayne!

Sincerely,

Mrs. Bukola Akinbola

## POSITIVE STUDENT CODE OF CONDUCT

The MSD of Wayne Township's Board of Education has the legal responsibility for the schools in which students are enrolled. The Board has set policies and has appointed administrative officers to carry them out. Administrators, teachers, and other school personnel have the duty to protect the student and the educational environment in which the student exercises his or her right to an education.

You should have received a copy of the Student Code of Conduct on the first day of your child's enrollment in Wayne Township Schools. If not, please visit <https://district.wayne.k12.in.us> to review.

You are welcome to ask questions should there be any concern.

Please call the LAP office @317-988-8617 for any assistance.

## POSITIVE SCHOOL EXPECTATIONS

Disciplinary rules in schools allow for addressing students' misbehavior. Some conduct could lead to discipline in the form of suspension or expulsion. Students who are suspended can't come to classes for a temporary period of time—usually just for a few days. An expulsion refers to a permanent removal of a student from his or her regular educational setting due to a serious violation of school rules or policies. The expulsion stays on their school record. Students are encouraged to report to the nearest adult(s) if they feel uncomfortable with the actions of another student or group of students. That way, they can keep from getting involved in any unwanted activities.

Arrive on time for school

Attend class regularly and everyday

Be respectful to staff and other students

Always be willing to be a good team player when required by the teacher

Promote equality, diversity, and inclusion among students

## MISCONDUCTS THAT MIGHT GET A STUDENT IN TROUBLE

Harassing or bullying other students (including sexual harassment and cyberbullying)

Hurting or threatening to hurt another student or a staff member

Possessing or giving someone else any kind of weapon (including a knife, toy gun, etc.) or dangerous objects

Giving other students over-the-counter medications like caffeine pills or prescription pills to school without the knowledge of the school nurse

Hacking the school computer

# SAFE VISITOR IDENTIFICATION

The MSD of Wayne Township is committed to creating a safe environment for our students and families. Parents or guardians are welcome to visit our schools for special events, celebrations, and parent/teacher conferences. Please call the office first should you need to discuss anything pertaining to your child.

Be prepared to present an **official government photo ID from any country** to our front office staff in your building upon arrival. We embrace safety as a top priority in all of our school buildings.

If necessary, please feel free to contact the school's principal or assistant principal.

- **A student is ill:** Parents are expected to check their students daily to confirm they are free from fever or any other illness symptoms before sending them to school. A student who becomes ill during school hours is taken to the nurse's office, and thereafter the parent (or another person designated by the parent) in writing will be notified to pick up the student. It is very important that the school is provided with medical information and alternate persons to call for assistance in the event a parent cannot be reached.

- **A student is absent:** Please call the school office within the first hour of each school day of the child's absence.

- **You want a message delivered:** Only emergency messages may be delivered to students. In case of emergency, call the school office.

## Home Language Survey (HLS)

The Civil Rights Act of 1964, Title VI, Language Minority Compliance Procedures, requires school districts and charter schools to determine the language(s) spoken in each student's home in order to identify their specific language needs. This information is essential in order for schools to provide meaningful instruction for all students as outlined Plyler v. Doe, 457 U.S. 202 (1982).

The purpose of this survey is to determine the primary or home language of the student. The HLS must be given to all students enrolled in the school district / charter school. The HLS is administered once, upon initial enrollment in **Indiana schools**, and remains in the student's cumulative file.

Student Name: \_\_\_\_\_ Grade: \_\_\_\_\_ School: \_\_\_\_\_

### STUDENT LANGUAGE BACKGROUND

Please answer the following questions regarding the language spoken by the student:

1. What is the native language of the student? \_\_\_\_\_

2. What language(s) is spoken most often by the student? \_\_\_\_\_

3. What language(s) is spoken by the student in the home? \_\_\_\_\_

By signing here, you certify that responses to the three questions above are specific to your student. You understand that if a language other than English has been identified, your student will be tested to determine if they qualify for English language development services, to help them become fluent in English. If entered into the English language development program, your student will be entitled to services as an English learner and will be tested annually to determine their English language proficiency.

## LANGUAGE ASSISTANCE PROGRAM (LAP)

The Language Assistance Program (LAP), also known as English as a Second Language (ESL), supports English language learners and their families' transition successfully into academic studies in Wayne Township. The program follows state and federal guidelines in servicing students that are Limited English Proficient and provides families with guidance on how to support their students as they progress in the language acquisition process. The program provides the opportunity for students to receive individual support from the ESL teachers to help them to develop their speaking, writing, reading, and listening skills.

Here are some common terms and abbreviations:

**EL** (English Learners): A general term used for people learning the English Language.

**ILP** (Individual Learning Plan): An official document created for each English Learner with strategies, accommodations, modifications, and goals based on their English proficiency level.

**HLS** (Home Language Survey): Refers to the document that was completed when the student first enrolled in Indiana schools, typically kindergarten.

**WIDA SCREENER (ACCESS 2.0)**: This is the Indiana high quality standard statewide assessment to determine the English Language fluency level of new bilingual, or multi-lingual students.

### English Language Proficiency Levels

**1.0 -1.9 Entering**

**4.0 -4.9 Expanding**

**2.0 -2.9 Emerging**

**5.0 -5.9 Bridging**

## **ENGLISH LEARNER K-12 PROGRAM SERVICES**

Here is a helpful step-by-step progression in designing the K-12 program for ELLs and how it works:

- Enrollment of students into the US School
- Identification as a potential English Learner (WIDA Screener)
- Assessment of student to determine EL service (Access 2.0)
- Provision of the appropriate EL Program
- Transition from EL Program (student becomes proficient or fluent)
- Exit from EL services (Receive a 5.0 or higher)
- Monitor student ability to participate meaningfully for 2 years

## Notice of Placement in English Learner Program

We are sending this letter to inform you of your child's identification as an English learner (EL) and of his/her placement into an English language development program. We are following federal law as required of all school corporations:

- (1) To identify limited English proficient (LEP) students;
- (2) To assess students' progress in learning English; and
- (3) To provide students with services to increase their English proficiency and academic achievement

To identify students that are ELs and the educational services they will need, we use the Home Language Survey (HLS) and WIDA ACCESS (W-APT for new students). The WIDA ACCESS or W-APT measures students' English abilities in listening, speaking, reading, and writing. Your child's overall English language proficiency score on his/her most recent WIDA ACCESS or W-APT was:

English Language Proficiency Assessment	Overall Score (Score range is 1.0 - 6.0. A score of 5.0 or above indicates proficiency.)
WIDA ACCESS	3.3

Your child will participate in a program to help him/her attain English proficiency in listening, speaking, reading and writing, succeed in academics and meet graduation requirements.

As a parent, you have the right to:

- (1) Remove your child from the English language development program; and
- (2) Decline your child's participation in the program or choose another program or method of instruction

In order to exit the English language development program, your child must obtain an overall, composite score of 5.0 on the WIDA ACCESS. After exiting from the program, your child's academic progress will continue to be monitored for two years. While the rate of attaining English language proficiency varies greatly from student to student, research has shown that it typically takes 3-7 years to attain English proficiency and exit from English language development services. Indiana's expected rate of graduation is currently 90%.

The following table identifies the method(s) of instruction that will be used with your child:

Name	Description	Placement
Translational Bilingual Education	TBE is an instructional program in which subjects are taught through two languages— English and the native language of the English learners – and English is taught as a second language. English language skills, grade promotion and graduation requirements are emphasized and L1 is used as a tool to learn content. The primary purpose of these programs is to facilitate the LEP student's transition to an all-English instructional environment while receiving academic subject instruction in the native language to the extent necessary. As proficiency in English increases, instruction through L1 decreases. Transitional bilingual education programs vary in the amount of native language instruction provided and the duration of the program (U.S. General Accounting Office, 1994). TBE programs may be early-exit or late-exit, depending on the amount of time a child may spend in the program.	
ESL	English as a second language (ESL) is an educational approach in which English learners are instructed in the use of the English language. Their instruction is based on a special curriculum that typically involves little or no use of the native language, focuses on language (as opposed to content) and is usually taught during specific school periods. For the rest of the school day, students may be placed in mainstream classrooms, an immersion program, or a bilingual education program. Every bilingual education program has an ESL component (U.S. General Accounting Office, 1994).	
Pull-out ESL	The goal is to develop fluency in English. Students leave the mainstream classroom part of the day to receive ELD instruction.	
Content-based ESL	This approach to teaching English as a second language makes use of instructional materials, learning tasks, and classroom techniques from academic content areas as the vehicle for developing language, content, cognitive and study skills. English is used as the medium of instruction (Crandall, 1992).	
Regular education program	This code is appropriate for the following situations: -A student who has attained the English proficiency level of fluent and performs well within the school district's regular education program. -An LEP student whose parents have declined English language development services. -An English learner served solely through the special education program (not receiving English development services), due to a documented severe cognitive disability. -Native English speaking immigrants.	
ESOL	English language development (ELD) means instruction designed specifically for English learners to develop their listening, speaking, reading, and writing skills in English. This type of instruction is also known as "English as a second language" (ESL), "teaching English to speakers of other languages" (TESOL), or "English for speakers of other languages" (ESOL). ELD, ESL, TESOL or ESOL standards are a version of English language arts standards that have been crafted to address the specific developmental stages of students learning English.	

## Exiting From Services and Monitoring

- Students must score a 5.0 or higher on the Spring WIDA ACCESS assessment to exit the program.
- Once the student exits, he or she is monitored for two years.
- **Denial** - Parents can deny services, but the student will still participate in state testing until a proficiency level of 5.0 is reached.
- **Reclassification** -Even if a child exits the program, a parent may request the child be reclassified or reinstated if language is an issue.
